

Name: Omar Said Ali Elhenshir

Gender: male

Nationality: Libyan

Contact Information

Mobile: +218 916397117

E-mail elhenshir@btc.org.ly

- **Researcher at Microbiology Department, Libyan Biotechnology Research Centre.**
- **Member of the Quality management committee.**

Education and Qualifications: -

- **PhD in Food Microbiology, 2013** - University of Nottingham, UK.
- **MSc in Food Safety and Quality Management, 2004** - University of Greenwich, UK.
- **BSc in Food Sciences, 1984** - University of Tripoli (previously known as University of Alfatah).

Training course Attended:

- Food Irradiation Research and Microbiology.
- Use of radioisotope in determination of pesticide residues in food
- Research Methodology and Technical Feasibility of Food Irradiation
- Operation of Electron Paramagnetic Resonance (EPR) and its uses in detection of irradiated food.

Research Interest

- Isolation and identification of bacteria using molecular methods.
- Studying the mechanisms involved in killing bacterial cells due to some physical or chemical treatments.
- mutagenicity assessment of some substances using Ames/Salmonella mutagenicity assay. Aflatoxins in food.
- Food safety and quality management.
- Quality management systems according to ISO standards.
